

1LALITHA KANNEGANTI20/08/2024 As per the order passed by this Court, the expenditure of the petitioner/wife is placed before this Court, where it shows that she requires an amount of Rs.6,16,300/- for her monthly expenses. On the face of it, this Court cannot appreciate all the amounts that are stated. That cannot be monthly expenses of a person who has no responsibility to take care of the children or other family expenditure except her personal expenditure.

As a last and final opportunity, the petitioner/wife shall file the actual monthly expenses and if they are the actual expenses, then this Court will consider the same on the next date of hearing.

Learned counsel appearing for the respondent/husband submits that an amount of Rs.63,00,000/- is in circulation as wife is investing in the share market which is denied by the learned counsel for the petitioner/wife.

The respondent/husband shall file all the relevant documents with an affidavit and serve a copy of the same on the counsel appearing for the petitioner and the petitioner/wife shall file an affidavit and in the said affidavit, she shall disclose her actual monthly expenses. Basing on that, orders will be passed.

Post these matters on 09.09.2024 and by that time, affidavit shall be placed on record.
