Samarthya: National Competition on Corporate Rescue Strategies, 2025

An LL.M. in Insolvency and Bankruptcy Laws, jointly offered by NALSAR University of Law and Indian Institute of Corporate Affairs initiative to Empower Businesses

In furtherance of Viksit Bharat

Dates: 22nd & 23rd March, 2025

Venue: Indian Institute of Corporate Affairs, Manesar

Mode of the Event: Hybrid

Samarthya is a competition designed to pre-empt insolvency and find suitable turnaround strategies to maintain the business as a going concern while aiming to restore its profitability. It aims to bridge the gap between theory and practice by challenging participants to develop strategies for a company at the brink of insolvency.

About IICA

The Indian Institute of Corporate Affairs (IICA) was established by the Ministry of Corporate Affairs (MCA) as a premier institution for corporate governance, policy research, and capacity building. Approved by the Planning Commission in 2007, IICA was envisioned as a worldclass knowledge hub to support MCA in regulatory reforms, corporate governance, and investor education. IICA serves as a think tank for the government, providing policy inputs, research, and consultancy. It collaborates with global institutions like IIT Kharagpur, Yale University, and George Washington University, fostering innovation and best practices in corporate affairs. The institute also supports ICLS officer training, e-governance initiatives, and business solutions for corporates, SMEs, and startups. Designed as a self-sustainable model, IICA engages with stakeholders through its research centers, academic programs, and corporate training initiatives. It promotes ethical governance, entrepreneurship, and investor protection while enhancing India's corporate regulatory framework. With a knowledge-driven approach, IICA bridges the gap between government, industry, and academia, ensuring continuous evolution in corporate affairs, compliance, and economic governance.

About LL.M. Insolvency and Bankruptcy Law course

The LL.M course offered by the National Academy of Legal Studies and Research (NALSAR University) and Indian Institute of Corporate Affairs (IICA) is first of its kind LL.M. Degree Programme in Insolvency and Bankruptcy Laws and Procedures Law in India. India has a huge, emerging sector for helping distressed and bankrupt companies come out of financial difficulty. But it faces a huge shortage of bankruptcy professionals who can oversee the process. As of 2023, the country had nearly 3000 insolvency professionals; however, the number of Insolvency Professionals and Insolvency Associates are very less considering the number of filings taking place every day at NCLT. On an average, one Insolvency Professional needs at least 20 associates to assist in big-ticket CIRP and Liquidation cases. Therefore, there is a serious need to produce good insolvency associates and ecosystem at mass level for providing the support to IPs, IPEs, Consultancies, Law Firms, ARCs and Academia. Therefore, the Master level course/ orientation in Insolvency and Bankruptcy Laws is the need of the hour. There is a vacuum in this area in the legal educational system in the country and this course seeks to fill up this vacuum.

Team composition and eligibility criteria for participation

The Competition is open to students who are pursuing full-time 3-year or 5-year Undergraduate or Postgraduate programmes in Law and Undergraduate or Postgraduate programmes in Finance, Management, or Economics from any recognized university, college, or institution.

Each participating team will consist of three members. Once registered, a team may not alter its composition without the prior written consent of the Organisers, which will be granted at their sole discretion and upon providing a valid reason. While teams may include members from different universities, colleges, and institutions, it is mandatory that at least one member be a student currently pursuing law. Failure to comply with this requirement will lead to disqualification.

Attendees for the panel discussions to be held on 23rd March, 2025

The panel discussions scheduled for 23rd March, 2025, are open to professionals and students in the field of Law, Finance, Management, and Economics, as well as academicians and researchers.

Expected Outcomes

Participants will gain:

- Hands-on experience in financial distress assessment and devising corporate rescue strategies.
- Opportunity to apply theoretical knowledge to real-world business scenarios.
- Gain valuable insights from insolvency professionals, academicians, and industry experts.
- Platform to connect with peers, legal professionals, academicians, professionals and industry leaders.
