BY SRI.K.A.ANAS, GOVERNMENT PLEADER

**THIS WRIT PETITION (CIVIL) HAVING COME UP FOR ADMISSION ON
26.09.2025, THE COURT ON THE SAME DAY DELIVERED THE FOLLOWING:**

2025:KER:72018

J U D G M E N T

Dr. A.K. Jayasankaran Nambiar, J.

This writ petition, filed by the petitioner who has been appearing in person before us, is premised on a suspicion entertained by the petitioner that steps are afoot to detain him under the preventive detention laws of the State.

2. When the matter came for admission before us, and on hearing the submissions of the petitioner, we had a doubt with regard to his intellectual abilities, and therefore, referred him to a Clinical Psychologist attached to the Victim Rights Centre, functioning under the auspices of the Kerala State Legal Services Authority [KeLSA]. A preliminary assessment of the petitioner by the said Psychologist suggested that his was a case of schizophrenia. This aspect became further clear when the Public Prosecutor, who had taken instructions from the Government in the meanwhile, reported that no proceedings were outstanding against the petitioner.

3. While the above would have sufficed to dismiss the writ petition as devoid of merit, we felt it desirable to do so only after ensuring that the petitioner receives medical assistance for his condition. We therefore asked the petitioner to appear before us once

2025:KER:72018

again with his father on the next date of posting of the case which was adjourned to 11.09.2025 for that purpose. On the said day, after interacting with the petitioner and his father, we managed to convince the petitioner to seek medical assistance for his condition. We also requested Adv.Smt.Parvathi Menon A., who is known for her pro bono work for the lesser privileged persons in society and also for playing an active role in the functioning of the Victim Rights Centre, to try and get the petitioner referred to the Psychiatry Department of the Government Medical College Hospital, Ernakulam, for treatment.

4. We are happy to note that on account of the efforts of Adv.Smt.Parvathi Menon A., the petitioner was able to receive treatment at the aforementioned Hospital and is making steady progress with regard to his medical condition. The report of the said Hospital on the mental condition of the petitioner concludes by stating as follows:

“ _____ ; was observed in our ward and serial mental status examination was done. On mental status examination, _____ was conscious, oriented and cooperative for all sessions. He was answering questions and his psychomotor activity was adequate. He is having delusion of persecution and bizarre delusion. He is having 3rd person Auditory Hallucination. He is having average intelligence and Grade I insight.

_____ was evaluated by Clinical Psychologist. The following Diagnostic Psychometry tests were done. Million Clinical Multiaxial Inventory — III (MCMI-III), Positive and Negative Syndrome Scale (PANSS) and Human Figure Drawing Test (HFDT).

With the available history, previous medical records, serial mental status examination findings and clinical psychology evaluation, _____ is suffering from a psychotic disorder- Schizophrenia. The diagnosis and need for continued medications were discussed with _____ and his father. He was psycho educated regarding the prognosis and risks if medications are not taken. _____ agreed to start on medications and anti-psychotic medication is initiated.

He needs supervised medications, long time regular follow up and continuous psychosocial support.”

2025:KER:72018

During an interaction with the petitioner today, he assured us that he will follow up on his medications and seek continuous psychosocial support as advised by the doctors. We therefore close this writ petition as infructuous, and wish the petitioner the very best in his future endeavours.
